Chairman Message

Dear Shareholders!

It gives me immense pleasure in welcoming you all to the 44th Annual General Meeting of your Company. The Annual Report for the year ended 31st March, 2019 along with the Directors' Report and the Audited Financials of the Company have already been circulated to you. I request your kind permission to take them as pre-read.

The Financial Year 2018-19 was filled with highs and lows for the manufacturing sector. The prices are market driven and depend on multiple factors existing in local as well as in international market. We overcame challenges that emerged from the external environment in a manner that has made us more future-ready than ever before. These challenges tested our organizational capability to counter headwinds. Ultimately our dedication made us even more confident that we will always continue to contribute positively to our stakeholders.

The country's economic fundamentals are sound, and the Government is determined to remove impediments to economic development and social empowerment. In this context, it is relevant to mention ambitious "Make in India" and "Industry 4.0" initiative which has encouraged indigenous manufacturing expertise to compete at global market. The overall industry is undergoing rapid change and it has become essential to continuously refine and sharpen our capabilities. While responding to these, changes are imperative, capability alone will not be sufficient to generate long term sustainable value for stakeholders.

I would now like to present some key features of your Company's performance during the year 2018-19.

We look beyond challenges, and apply our abilities with focus and foresight. As continued from past years we bagged contracts from Indian Railways, BHEL, HAL, NTPC, and MDNL. As a continued collaboration in Escalators and Elevators division with IFE Elevators Company Limited (A Chinese enterprise engaged in integrated R&D, design, production of Escalators, Elevators and Lifts) in utilizing best-in-class technology, improved cost competitiveness focused on value-added products to attract new customers; adding to this division we have contributed to various Infrastructure projects of DMRC, We were also awarded contract by MMRDA and MMRCL for Escalator for Mumbai Metro the same are under execution. We are also executing several contracts for Indian Railways for wagon overhauling and modifications.

With these words I wish to convey earnest thanks to our valued Shareholders for their continuous support and trust in us. This motivation helps us to excel in all our pursuits and constant endeavor to create value for you. Also I would like to place on record the commendable efforts and commitment shown by each and every employee of Cranex as they have always contributed their best for the Company.

Suresh Chandra Agrawal
Chairman

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

• INDUSTRY STRUCTURES AND DEVELOPMENTS

The growth of equipment manufacturers (cranes, construction and material handling equipment's) is concerned; it is linked with growth of infrastructure, real estate, agricultural and indirectly with the growth of Indian economy. It requires expertise, in terms of technology, design and providing customer satisfaction. Its potential and market is huge; however only companies who would be able to provide good quality products at most competitive price will survive. The Company's CRANEX brand has emerged as brand for reliability and has been able to win the customer loyalty in all these years. CRANEX LIMITED will continue its successful stint in the industry, through providing good quality products at most reasonable prices and complete customer satisfaction by its strong distribution and service network.

• OPPORTUNITIES

Crane Division:

- Cranex continues to focus on various strategies and initiatives to overcome challenges. These include consolidation of new generation cranes in the targeted market segments. Cranex maintained its market position and is well positioned to achieve growth in terms of volumes and market share through better service levels and by providing the best of technology at an affordable price. We believe that our proactive steps in providing best solutions to our customers and implementation of our strategies have prepared us for growth as demand picks up once the consumer sentiments improve with the expected revival of the infrastructure industry. We are increasing our presence in few more states. We are, consequently, focusing on providing customers a complete range of crop solutions.

Escalators and Elevators Division:

- As Infrastructure Sector is booming at the record time high in India therefore Cranex is also increasing its presence in other metro cities like Mumbai by contributing to Mumbai metro project. The new division of Escalators and Elevators which is in collaboration with IFFE China is bringing latest integrated patented technology to India and performing at a gradual pace. We engaged in various projects of Delhi Metro and Mumbai Metro and providing elevators and lifts installation at various metro stations along with maintenance of the same. We are confident that it will capture the larger market share in its segment soon.

• THREATS

- Economic downturn or slowdown can lead to decreased volumes and capacity utilization.
- Continued threat of raw material price volatility translating into pressure on margins during a rapid increase in raw material prices.
 - Weak currency resulting in pressure on margins.
 - Any change in the government policy or its budgetary allocation to the infrastructure sector will have a major impact on Company's business.
 - Change in the tax structure of Sales Tax, Entry Tax, Service Tax, VAT, GST etc.

- Increasing competition from National and International competitors.
- Unforeseen business losses

• **RISK & CONCERNS**

The Company's ability to foresee and manage business risks is crucial in achieving favourable results. The Company operates in an environment which is affected by various risks some of which are identifiable and

Controllable Some others are unexpected and cannot be controlled. Under these conditions, proper identification and management of risks is very important in determining the ability of the organization to sustain and create value for its stakeholders. The impact of the key risks which are listed below has been identified through a formal process by the management. However, the Company has been taking appropriate measures to mitigate these risks on a continuous basis. Some of the risks that are potentially significant in nature and need careful monitoring are listed hereunder:

• **Raw material prices volatility -**

Steel and other commodities are subject to price volatility and our profitability and cost effectiveness may be affected due to any increase \$decrease in the prices of raw materials and other inputs.

• **Continued economic growth -**

Demand of our equipment / machines is dependent on economic growth and / or infrastructure development. Any slowdown in the economic growth affects our growth.

• **Market risk-**

Even as the Indian economy slowly recovers from the prolonged downturn, infrastructure spends will take time to kick in. Consequently, demand for construction equipment remains muted. There ever there is demand, one finds stiff competition from other players trying to secure these orders at such prices as may put unsustainable pressure on margins.

• **Foreign Currency Risk-**

Exchange rate fluctuations may have an adverse impact on the Company.

• **Cyclical nature of the Industry-**

The Company's growth is linked to those of the crane Industry, which is cyclical in nature. The demand for crane has a significant impact on the demand and prices of the products manufactured by the Company. A fall in the demand and / or prices would adversely impact the financial performance of the Company.

• **CAUTIONARY STATEMENT**

Statements made in this report describing the Company's objectives, projections, estimates and expectations may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results may differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic conditions affecting demand/supply and price conditions in the domestic and overseas markets in which the Company operates; changes in the Government regulations; tax laws and other statutes and incidental factors.

assurance about whether the stand alone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of M/S CRANEX LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”) as referred to in paragraph 2(f) of Report on Other Legal and Regulatory Requirements section.

We have audited the internal financial controls over financial reporting of M/s **CRANEX LIMITED** (“the Company”) as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls.

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over

financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Critical Accounting Judgments And Key Sources Of Estimation Uncertainty

The preparation of the Company's Financial Statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

(a) Depreciation / Amortisation and useful lives of Property Plant and Equipment

Property, Plant and Equipment are depreciated / amortised over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets

and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

(b) Recoverability of Trade Receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

(c) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability requires the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

First Time Adoption of IND AS

The Company has adopted Ind AS with effect from 1st April 2017 with comparatives being restated. On assessment of estimates and measurement of financial assets made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise such estimates and measurement of financial assets under Ind AS, as there is no objective evidence of an error in those estimates and measurement of financial assets. The figures for the previous period have been restated, regrouped and reclassified wherever required to comply with the requirement of Ind AS and Schedule III.

B.1 Basis of accounting and preparation of financial statements

B.2 Summary of Significant Accounting Policies

(a) Property, Plant and EquipmentProperty, Plant and Equipment are stated at cost net of recoverable taxes, trade discounts and rebates and include amounts added on revaluation, less accumulated depreciation and impairment loss, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.Subsequent expenditures related to an item of Property, Plant and Equipment are added to its book value only if they increase the future economic benefits from the existing asset beyond its previously assessed standard of performance.

Depreciation on Property, Plant and Equipment is provided on Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II;

Particular	Depreciation
Property, Plant and Equipment	Over its useful life considered as 30 years as technically assessed

Other	Over the period of agreement of right to use

The residual values, useful lives and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(b) Finance Cost:

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Profit and Loss Statement in the period in which they are incurred.

(g) Foreign Currency Transactions:

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the

transaction or that approximates the actual rate at the date of the settlement of the transaction. Monetary assets & liabilities denominated in foreign currencies at the year end are restated at year end rates. In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognised as exchange difference and the premium paid on forward contracts is recognised over the life of the contract. Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Profit and Loss Statement, except in case of long term liabilities, where they relate to acquisition of Fixed Assets, in which case they are adjusted to the carrying cost of such assets.

(h) Revenue Recognition:

Critical Accounting Judgments And Key Sources Of Estimation Uncertainty

The preparation of the Company's Financial Statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

(a) Depreciation / Amortisation and useful lives of Property Plant and Equipment

Property, Plant and Equipment are depreciated / amortised over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

(b) Recoverability of Trade Receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

(c) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability requires the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

First Time Adoption of IND AS

The Company has adopted Ind AS with effect from 1st April 2017 with comparatives being restated. On assessment of estimates and measurement of financial assets made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise such estimates and measurement of financial assets under Ind AS, as there is no objective evidence of an error in those estimates and measurement of financial assets. The figures for the previous period have been restated, regrouped and reclassified wherever required to comply with the requirement of Ind AS and Schedule III.
